ELECTRICITY IS CHEAP—

Use It Freely to Make Your Home Livable.

Electricity makes a home livable not only because it brings brightness and cleanliness and health, but because it relieves the housewife of so much of the drudgery of the housework that she is able to have more time for recreation and other activities which mean so much for the happiness and comfort of the family.

A wise woman has said that electric service promotes a good disposition and that good dispositions are essential to happy homes.

It's worth thinking about, anyway.

And electricity today costs a small fraction of what it cost even a few years ago.

INTRODUCTION

HILL DIRECTORY CO., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1936 edition of the Charlotte City Directory.

Confidence in the continued growth of Charlotte's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Charlotte to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Charlotte Directory will fulfill its mission as a source of authentic information pertaining to the city.

Five Major Departments

The five major departments are arranged in the following order:—

THE BUYERS' GUIDE, pages 21 to 54, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Charlotte. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a large commercial and industrial center like Charlotte, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 55 to 674. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Charlotte, and the name, official personnel, nature and address of each firm and corporation in the city.

THE NUMERICAL TELEPHONE DIRECTORY extends from page 675 to page 714.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, covers pages 715 to 926. In this section the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 927 to 990. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Charlotte.

The Charlotte Directory Library

Through the courtesy of the publishers of the Charlotte City Directory, a Directory Library is maintained in the offices of the Charlotte Chamber of Commerce, for free reference by the general public. This is one of more than 450 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

HILL DIRECTORY CO.,
Publishers.

STATISTICAL REVIEW

Form of Government—Managerial.

Population—Total, 82,675; males, 39,583; females, 43,092; total colored, 25,163; white males of age, 24,538; white females of age, 27,229 (1930 U. S. Census). Local estimate at present, 90,000. American-born, 99.7%.

Area—19.36 square miles.

Altitude—780 feet above sea level.

Climate—Mean annual temperature, 60.2 degrees F.; average annual precipitation, 49.2 inches.

Parks—9, with total of 333.1 acres, valued at $589,000.

Assessed Valuation—$110,000,000 (real), with $1.46 per $100 city tax rate.

Bonded Debt—$8,000,000.

Financial Facts—8 banks, with total deposits of $55,141,000 (June 30, 1935), and total resources of $63,081,000 (June 30, 1935). Clearings for 1934, $537,148,809.23. 2 building and loan associations with total assets of $9,000,000 (Jan. 1, 1935).

Postal Receipts—$834,763.21 (calendar year 1934).

Telephones in Service—15,415 (1934).

Churches—126, representing 16 denominations.

Real Estate—17,943 homes, with about 55% owned by occupants.

Industry—Chief industries of city and surrounding territory: Manufacturing and agriculture. 126 manufacturing establishments, employing approximately 9,000 workers, paying wages of $8,000,000 annually, and having products valued at $75,000,000 annually.

Trade Area—Retail area has radius of 50 miles, and population of 583,000; wholesale area, radius of 100 miles, and population of 1,972,000.

Newspapers—2 daily and Sunday; 2 weekly.

Hotels—8, with total of 1,250 rooms.

Railroads—4: Southern, Seaboard Air Line, Norfolk-Southern, and Piedmont & Northern (electric).

Highways—U. S. 21 and 74; State 15, 20, 26, 27 and 262.

Airports—1 privately-owned; 1 City-owned.

Amusements—Largest auditorium in city (Armory) seats 5,000 persons. Total seating capacity of theatres, 5,000. 7 golf courses.

Hospitals—6, with total of 600 beds.

Education—Queens-Chicora College. Davidson College nearby. Johnson C. Smith University (c). 27 public schools, including 1 senior high and 2 junior high. 1 parochial School. Number of pupils in public schools, 17,000; in parochial, 300. Number of teachers in public schools, 450; in parochial, 8. Value of public school property, $3,712,272; parochial school property, $150,000.

Public Libraries—5, including branches, with total of approximately 75,000 volumes.

City Statistics—Total street mileage, 177, with 135 miles paved. Miles of gas mains, 96; sewers, 150; electric street railway, 35. Number of water meters, 15,276; light meters, 20,545; gas meters, 6,745. Capacity of water works (municipal), 10,000,000 gallons; daily average pumpage, 6,000,000 gallons; miles of mains, 228; value of plant, $1,500,000. Fire department has 126 men, with 6 stations and 35 pieces of motor equipment. Value of fire department property, $175,000. Police department has 110 men, with 1 station and 19 pieces of motor equipment.

HISTORICAL FOREWORD

Charlotte, North Carolina; population, 82,675, U. S. Census of 1930 (over 90,000 including suburbs), is the geographical and commercial center and the largest city of the two Carolinas. Charlotte was settled in 1750 by the Scotch-Irish and Germans who came south through Pennsylvania and Virginia, and the English, Scotch, Germans, Huguenots, and Swiss who

came north from Charleston, South Carolina. The present population of the entire state is less than one per cent foreign-born. The city was incorporated in 1768.

Charlotte, "the Queen City of the South," was so named in honor of Princess Charlotte, of Mecklenburg-Schwerin, who in 1761 became the wife of George III. It is the county seat of Mecklenburg County, named in memory of the birthplace of the Queen.

May 20, 1775, a date borne on the state flag of North Carolina, marked the signing of the famous Mecklenburg Declaration of Independence at the court house in Charlotte. The document anticipated much of the national declaration which was signed on July 4 of the following year.

"The Hornets' Nest" tradition, so long picturesquely associated with Charlotte, started at the time of the uncomfortable and nearly disastrous occupancy of Charlotte by forces under Lord Cornwallis in September of 1780. The British commander is responsible for the title.

The last meeting of the cabinet of the Confederate States presided over by Jefferson Davis was held in Charlotte on April 10, 1865.

Andrew Jackson, seventh president of the U. S., and James K. Polk, the eleventh, were born in Mecklenburg County.

CLIMATE AND TOPOGRAPHY

The Charlotte climate and that of the Piedmont area is dry and invigorating. Summer temperatures equal those in lower New York and Pennsylvania, but with much less humidity. There are no protracted periods of extreme heat. Rainfall is moderate and evenly distributed. There is abundant sunshine throughout the year, and the plateau is at an elevation discouraging to disease germs. Prevailing winds are such that the humidity is generally low and heat prostration is unknown.

Mountains a short distance to the west of Charlotte afford a barrier to cold waves, and winter temperatures are consistently mild and equable.

Temperatures below 20 degrees are rare. The mean annual temperature is 60.2 degrees, and the annual precipitation is 49.2 inches. Charlotte is 780 feet above sea level.

MUNICIPALITY AND COUNTY

Charlotte and Mecklenburg County are closely knit into a cooperative and progressive city-county community. Tax rates are commensurate with the trend of the times and with moderate appropriations to public works. The city and county have an assessed valuation of approximately $200,000,000 and a real value of nearly $300,000,000.

Municipally-owned water works are of the finest and have been designed for extensive future increase. The pipe line into the city has a capacity of 20,000,000 gallons in twenty-four hours, and the million-dollar filter plant has a rated capacity of 10,000,000 gallons.

It is impossible in restricted space to describe in detail the extensive city, county, and federal departmental organizations with offices in Charlotte. Illustrations will reveal something of the classic beauty and generous proportions of the buildings housing these agencies.

Charlotte has an efficient fire department, with a corps of 126 mens, and excellent policing, sanitary, health and welfare departments, all adequately equipped to meet any emergency.

CHARLOTTE TODAY

Twenty-five years ago the South began to arouse from its bed of rich, deep traditions and bestir itself. There is a new South today—an onward-driving, pulsating South in industry, agriculture and finance.

Fundamentally successful industries develop best where abundant raw materials, mechanical power and stable population combine. Tremendously rich in natural resources, power and raw materials, the South has strided forward with seven-league boots, and today, the economic advantages resulting from the development of its resources are leading the trail of industry Southward.

This is true, not only in the textile field, where advantageous conditions of power, climate, labor and living conditions at the source of raw materials have already transferred the center of industry from New England to the South, but in other lines of diversified manufacturing as well.

North Carolina today is the pacemaker of the South; it leads in textile manufacturing and hydro-electric power development, and Charlotte is the center of a textile manufacturing territory having 770 mills, operating over 10,000,000 spindles and consuming more cotton than any other section in the world.

It is the center of one of the largest hydro-electric developments in the U. S., the total horsepower developed and in immediate prospect of developing being more than a million.

It is the largest center in the South for textile mill machinery and equipment, practically all the large companies in the U. S. and England handling their entire business in the South through Charlotte offices and plants.

It is the "Southern Market" for dyestuffs—laboratories and offices being maintained here by the leading dye corporations of the country.

Charlotte has annual payrolls of over eight million dollars, from 126 widely diversified manufacturing and industrial plants.

Charlotte is located in the center of a territory recognized as the most rapidly developing industrial and commercial section in the South. The eyes of the commercial, as well as tourist, world are focused on the Piedmont Carolinas—the section of which Charlotte is the geographic and industrial center.

Hard-surfaced roads radiate from Charlotte in every direction. Eleven highways enter Charlotte. The National Highway crosses the North Carolina State Highway at Charlotte. North Carolina has 9,000 miles of paved roads. Two million people can come to Charlotte from a radius of one hundred miles by automobile, transact business and return home the same day.

Charlotte is the distributing center of the Carolinas and is the natural radial point for the railroads of this section. Eight railway lines radiate from the city, this situation making possible a maximum of railway trackage for new industries of various kinds. There is an abundance of skilled and unskilled labor willing to give an honest day's work for a reasonable wage. Charlotte is not disturbed by continued labor difficulties, strikes and labor agitation.

The quality of Charlotte's water is excellent, and the supply abundant, with an up-to-date filter plant, built at a cost of $1,500,000.

Electricity, ample and at low rates, has been probably the greatest factor in the industrial and commercial development of Charlotte.

Charlotte's rapid gains as a manufacturing and business center have developed financial institutions commensurate with the demands of this rapidly-growing city and section which they serve.

Charlotte is live, aggressive, progressive.

Charlotte citizens cooperate in matters which promote the civic, commercial, religious and industrial welfare of the community.

Charlotte is a friendly city. It welcomes the newcomer, be he from the North, West, East or South.

INDUSTRY AND COMMERCE

Charlotte has many distinct advantages to offer the manufacturer—four competing rail lines, low freight rates, pure water and a convenient location. Henry Ford, after careful study, located his Mid-South assembly plant at Charlotte, and today it is one of the largest units in the Ford chain. Manufacturers should investigate this thriving city. Living conditions are ideal. Climate is mild and pleasant, and schools are among the finest in the South. Excellent hotels and shops. Cordial social life. Several excellent golf courses.

Transportation

Charlotte is in a strategic position—within immediate and economical marketing reach of the largest consuming centers in the country. There are four railway systems, with eight lines reaching in as many directions. There are 50 trains daily. In addition to railway freight terminal facilities for the reception of 5,400 carloads daily, the facilities of eight great motor-bus companies are at the disposal of shippers. The latter have direct daily connections with all towns in the Charlotte market area. Scores of passenger busses enter and leave the city daily.

The attention of the whole nation has been called to the North Carolina highway program begun more than a decade ago. The great network of roads is unexcelled in any similar area in the world and has been a major factor in the economic evolution of North Carolina from a laggard to a leader state. Naturally the most vital arteries in the highway system are those serving the industrial Piedmont. Charlotte, as commercial center of the Carolinas, is the meeting place for three Federal highways and ten State highways. Thousands of automobiles annually commute over these roads from points within a hundred-mile radius for shopping and business in the city.

Power

The availability of almost unlimited power at much lower rates than the prevailing average in the country has been perhaps the largest single factor in the development of Charlotte as an industrial center. Charlotte is headquarters city for the Duke Power Co., one of the largest in America, with properties including more than a score of vast hydro-electric and steam-electric power plants and approximately 5,000 miles of transmission and distribution lines in North and South Carolina.

The industrial and commercial development of the Piedmont Carolinas, today one of the busiest manufacturing and trading areas in the entire world, has paralleled the growth of the Carolinas as hydro-electric power center of the Southeast. James B. Duke, industrialist and tobacco magnate, more than thirty years ago conceived a plan whereby the vast resources at his disposal should be turned into channels for the upbuilding of the Carolinas and the new South. His vision has been realized and his successors in the administration of power and other holdings have devoted energy and capital without stint to the expansion of Southern manufacturing and to the crystallization of a sound economic structure for generations to come.

Labor

Charlotte's labor is of the finest in the country today—native, white, sober, industrious. Labor troubles are practically unknown and the labor turnover is small.

Textiles

Here the textile development of the South is centering. Seven hundred and seventy mills operating 10,000,000 spindles within a hundred miles, and a great business has grown up in supplying these mills with dyestuffs, cotton, machinery and equipment of all kinds.

As a Manufacturing Center, Charlotte Offers:

1. Low power for manufacturing purposes.
2. Close proximity to the sources of all material for finished products.
3. Cotton, cotton yarns, cottonseed, cotton oil, tobacco, peanuts, kaolin, wood pulp, lumber, etc.
4. Logical location for a manufacturer of commodities for export through the ports of Norfolk, Wilmington, Charleston and Savannah.
5. A very desirable type of high-class labor available to manufacturers.
6. Mild climatic conditions throughout the year. There are nine months of exceptional open-season weather.
7. The adequate transfer facilities of four railroads, with daily terminal facilities of 5,400 carloads.
8. Desirable living conditions and an unusual residential development.

Finance

With the sure and rapid growth of Charlotte as a business center, there has been concomitant development of adequate and reliable financial institutions. There are three national banks, one state bank, four industrial banks and two building and loan associations.

The Charlotte branch of the Federal Reserve Bank serves a territory embracing 34 counties in western North Carolina and 21 counties in western South Carolina. Counting out-of-town branches as separate banks, there were in this territory at the beginning of 1934, 38 member banks, nine par non-member banks, and 99 non-par, non-member banks operating on an unrestricted basis. The presence in Charlotte of a Federal Reserve Branch has furnished an added incentive to new businesses and industries desiring to establish offices and plants in or near the city of Charlotte.

Market and Trading Area

Charlotte is the largest and busiest city between Richmond and Atlanta. Charlotte is the natural point of dissemination for three extensive and growing trade channels: The Atlantic Coast Line territory, the Piedmont Carolinas, and the unexploited Tennessee-Kentucky sector. Charlotte is the commercial and industrial capital of a key area in the new South, Piedmont Carolinas—the industrial main line of the South Atlantic Seaboard. Millions are working. Millions are buying.

Newspaper circulation and advertising furnish a sound index to market conditions. The Charlotte Observer is the only morning paper in America in a city of less than 100,000 having a circulation of over 55,000 daily and 58,000 Sunday. The Charlotte News, a foremost afternoon newspaper (also published on Sunday morning) effectively reaches the local buying populace and the active market within a fifty-mile radius with a circulation of more than 30,000.

Charlotte has over 1,200 retail stores, including six of the largest department stores in the South. The big department stores alone employ 1,800 workers and the annual combined sales reach into millions.

The annual industrial payroll exceeds $8,000,000.

More than 45 smaller industrial and rural towns are located within a radius of fifty miles immediately centering around Charlotte. Advantageous geographical boundaries, plus the drawing power of modern stores, bring this tremendous volume of trade to Charlotte over a network of superb roads.

Charlotte has a greater population within a fifty-mile radius than Richmond; a greater population within a hundred-mile radius than Atlanta. Charlotte is the geographical and business center of the Carolinas.

	50-mile radius	100-mile radius
Richmond	468,000	2,124,000
CHARLOTTE	583,000	1,972,000
Atlanta	711,000	1,904,000

Population of city and suburbs	approximately	90,000
Population within 25-mile radius	"	250,000
Population within 50-mile radius	"	600,000
Population within 75-mile radius	"	1,200,000
Population within 100-mile radius	"	2,000,000
Population within 150-mile radius	"	4,500,000

Charlotte offers the finest opportunities of today as the logical location for new industries, distributors, wholesale houses and business interests of every description that wish to take advantage of the manufacturing and trade opportunities in this rapidly-developing section, the richest trading territory in the South.

District office of Bureau of Foreign and Domestic Commerce of U. S. Department of Commerce located at Charlotte. Two radio stations, WBT, 50,000 watts, and WSOC, 250 watts.

Diversification

Charlotte has 126 industrial plants of a wide range of interest.

There are more than 200 branch offices of national concerns in Charlotte. More than 1,000 traveling men make their headquarters here.

Charlotte is the center of a prosperous and widely diversified farming section.

Mecklenburg and the other counties immediately serving Charlotte are foremost in the state as truck-producing counties. Fresh vegetables and fruits are locally grown and are placed on the table of the city and urban consumer with dispatch, which pays tribute to the efficiency of the many excellent marketing agencies. In recent years Federal experimentation with perennial lespedeza and other forms of food and forage crops in Mecklenburg have attracted national interest. Morrocroft, a few miles from Charlotte, is perhaps the most beautiful model farm in the entire South. Some of the most noted prize cattle in the nation are locally owned.

CLUBS

The essential SPIRIT of any city or community can find tangible expression only through group civic organizations with their various specific objectives, and having in common the single purpose of cooperatively forwarding the prosperity and happiness of the entire community.

Excellent member clubs of the following national and international organizations may be found in Charlotte: Rotary, Kiwanis, Civitan and Lions.

The celebrated Goodfellows Club of Charlotte, meeting five hundred strong once a month, has achieved a record of accomplishment in charitable enterprises which has been a source of deep satisfaction to the entire state.

The Charlotte Woman's Club stands well to the fore and annually contributes much to the cultural welfare of the city through the promotion of art exhibits and in other ways. The fine work of the Altrusa Club and the civic enterprise of the Charlotte Business and Professional Women's Club give an index to the aggressive and constructive part taken by women in public life.

The Charlotte Junior Chamber of Commerce is an agency of great and growing importance in civic affairs.

RESIDENTIAL FEATURES

Charlotte is known throughout the country for the unusual extent of its beautiful residential sections, the elegance of its homes, the loveliness of residential landscape, and the thousands of trees bordering its streets.

But, however extensive its area of more costly homes, the basic unit is the small home. Charlotte has no tenement districts and no slums. There are thousands of small cottages and bungalows and the majority of families live in their own homes.

No city in the country not primarily a resort center has better hotel facilities than Charlotte. There are more hotel rooms in Charlotte than in any city between Washington and Atlanta, and Charlotte is prepared to take care of the largest conventions. Charlotte has several large metropolitan apartment houses, equipped luxuriously and comparing favorably with any in the world, and scores of smaller apartment buildings.

SPORTS AND RECREATION

Extensive and well-equipped parks and playgrounds, with directed and supervised programs of community play and recreation through the medium of the Park and Recreation Commission, afford a special incentive to families with children of all ages.

Within the city limits are abundant facilities for a wide variety of sports, including tennis, golf, handball, archery and others, and only a few miles away boat-racing and sailing may be pursued the year 'round. Seven fine golf courses are available, and an increased demand can be handled in advance.

The new plant of the old Charlotte Country Club, traditional throughout the country for charm and simple elegance and for the "Southern air," is unexcelled in the South.

The Myers Park Country Club, located at the edge of one of the most beautiful residential sections in the country, has been active in the promotion of inter-city and inter-state competition in swimming and in tennis, several important meets and tournaments being held annually.

EDUCATION AND CULTURE

Schools and Colleges

The love of education . . . a deference to things spiritual . . . were the first thoughts of the people of Mecklenburg in the settlement of their new country. The first schools were conducted in the homes of the teachers or of their patrons.

Prior to the time of the American Revolution, a number of school buildings had been erected.

Today the children of Charlotte and throughout the Piedmont region attend grammar and high schools of unusual excellence. The nature of the population, so largely pure American stock, makes any other course unnecessary. Charlotte has 27 modern and extensive school buildings and a capable personnel of well-trained and carefully-selected teachers.

Charlotte is the location of Queens-Chicora College, a Presbyterian college for women in the "A" classification of American colleges and universities.

Davidson College, located twenty miles from Charlotte, is closely associated with the "Queen City." A Presbyterian denominational college for men, Davidson has long been recognized throughout the nation as a college of exceptional character and the finest of traditions.

Johnson C. Smith University, located at Charlotte, is one of the outstanding Negro universities in the country and has long maintained a splendid record in the Charlotte community.

There are other educational and training agencies including commercial and business colleges with large enrollments, a preparatory and coaching school for boys, excellent dancing and music studio schools, and kindergartens. In fact, all the educational facilities of a modern city are offered by the "Queen City."

Music and the Theatre

The Charlotte Symphony Orchestra, under the direction of the Spanish composer and conductor, Guillermo de Roxlo, of Barcelona, is coming rapidly to the fore among civic symphony organizations.

There is an active concert association and there are other musical groups.

The Charlotte Little Theatre, under professional direction, has for several seasons attracted wide attention by the uniform excellence of work.

Libraries

Charlotte has five libraries, with a total of 75,000 volumes, in addition to the leading publications in all fields. There are numbers of active reading and book clubs.

An active children's department, featuring story-telling hours, adds greatly to the cultural life of the little folks, and forms an important part of the library program.

CHURCHES

Charlotte is the foremost church-going city in the state. It has more churches and more church members than any other city in North Carolina, and its Christianity and church work are of a practical character.

How strongly Christian influence is intrenched in Charlotte is demonstrated by more than a hundred organized congregations, with a membership of approximately forty thousand, including the Methodist Episcopal, Presbyterian, A. R. P., Baptist, Lutheran, Episcopalian, Catholic, Seventh Day Adventist, Moravian, Jewish Church of the Nazarene, and the Salvation Army. The total value of church properties in Charlotte is more than five million dollars.

Prominent in the religious life of the city are the Ministerial Association, embracing the pastors of practically every white church in the city; the Christian Men's Club, made up of prominent business men, and the Young Men's Christian Association and the Young Women's Christian Association.

MEDICAL CENTER

Charlotte has in recent years gained a national reputation as a medical and surgical center. Two large modern buildings, the Professional Building and the Medical Building, are entirely occupied with physicians, dentists and surgeons. In addition, numbers of the profession have offices elsewhere in the city. Some of the most successful and eminent specialists in the country are affiliated with Charlotte clinics.

There are six large hospitals, an extensive county sanatorium for tuberculosis, and a baby hospital. Clinical hospitals for eye, ear, nose and throat, and for other specialized diseases, are among the finest in the country.

The Hospitalization Foundation of the Duke Endowment, one of the major philanthropic institutions in America, is located in Charlotte.

BAROMETERS OF CHARLOTTE'S GROWTH

The following barometers, with a few exceptions, apply directly to the area within the city limits of Charlotte. Within this limitation, the figures give a fair picture of the city's expansion. Charlotte's growth, however, is actually greater, due to the development beyond the city's fixed limits, in the suburbs.

The stability of Charlotte's growth is indicated by the steady increase in population and wages paid even through the last few years. The value of manufactured products, and the number of wage earners employed in industry, show the solidity and industrial strength of the community.

The progressiveness of Charlotte is shown by the remarkable interest in the cultural and recreational features of the city's life.

BAROMETER	PERIOD OF YEARS	AMOUNT	% of INCREASE
Population			
City of Charlotte	1910	34,014

1935 (County)	.64

CHARLOTTE OF THE FUTURE

The awakening of Piedmont Carolinas and the development of Charlotte leadership in the past ten years furnish a vivid chapter in the history of the greater reconstruction of the South.

In real property and improvements, the increase in per capita wealth in North Carolina in the past census period of ten years was 340%. That of the nation at large was 61%. The industrialization of Piedmont Carolinas accounts for this phenomenal rate of progress in the state at large.

It is reasonable to assume, on the basis of all available data, that Charlotte is destined to continue on the upward trend and that it will maintain its position of preeminence among the cities of the Atlantic Seaboard. Roger Babson, who is familiar with the situation in the Carolinas, states: "I have every confidence that the city will continue on an upward trend . . . Charlotte may be rightly called one of the high spots of the nation."

Charlotte is strategically located for greater manufacturing and marketing. The "Queen City" vicinity offers logical advantages to:
Tobacco factories
Cotton mills
Silk mills
Rayon
Paper boxes
Machinery and tool manufacturers
Clothing
Fertilizer
Boots and shoes

Leather belting
Copper, tin, sheet iron
Structural steel
Wood pulp products
Terra cotta and pottery
Paint and varnish
Mattresses and pillows
Furniture
Farm implements
Wire work
Cordage and twines
Brooms and brushes
Auto and wagon works
Toy factory
Turned wood novelties
Cheese factory
Dairy products
Glass factory
Sack and bagging
Rugs and carpets
Scores of others not listed here

CHAMBER OF COMMERCE INVITES INQUIRIES

The Charlotte Chamber of Commerce is prepared to furnish an unprejudiced analysis of the Piedmont market as regards any particular product, and to cooperate with the inquirer in a careful follow-up of the initial step where conditions, in the inquirer's judgment, clearly justify investigation. The Chamber of Commerce extends an invitation to outsiders to visit this city and experience the Charlotte spirit of good-will and cooperation, and invites the outside public to tune in on WBT, Charlotte's 50,000-watt radio broadcasting station, one of America's finest and best; also, Radio Station WSOC. This is the fastest and soundest growing city in the greater industrial South. For a decade Charlotte has led the NATION in rapidity of growth as a distributing center. Mr. C. O. Kuester, Business Manager of the Charlotte Chamber of Commerce, will send any inquirer a personal answer explaining WHY this is true.

CHARLOTTE IS THE COMMERCIAL CAPITAL OF THE PIEDMONT CAROLINAS. WATCH AND HELP IT GROW GREATER.

Would be constantly before the public—the buyers—twenty-four hours a day—three hundred and sixty-five days a year—every year.

—Think it over

Electricity Is Cheap---

Use It Freely To Make Your Home Livable.

Electricity makes a home livable not only because it brings brightness and cleanliness and health but because it relieves the housewife of so much of the drudgery of house work that she is able to have more time for recreation and other activities which mean so much for the happiness and comfort of the family.

A wise woman has said that electric service promotes a good disposition and that good dispositions are essential to happy homes.

It's worth thinking about anyway.

And electricity today costs a small fraction of what it cost even a few years ago.

Names Appearing in Black Letters

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

TRADE! You like

to patronize those concerns who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quicks and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?
